

# BAKER-BOT

## The All-In-One Cobot

By now, you may have heard of the 3 D's when talking about Cobots — DULL, DANGEROUS & DIRTY. These are the tasks that production workers are faced with daily. The Baker-Bot is here to help with the 3 D's and put production workers back into skilled positions.

### Benefits:

- Safely works along side humans.
- Versatile for multi-tasking.
- Helps with labor shortages.
- Reduces worker repetitive strain injuries.
- Precisely repeats tasks.
- Never gets sick, needs a break, and loves the 3 D's.

### Features:

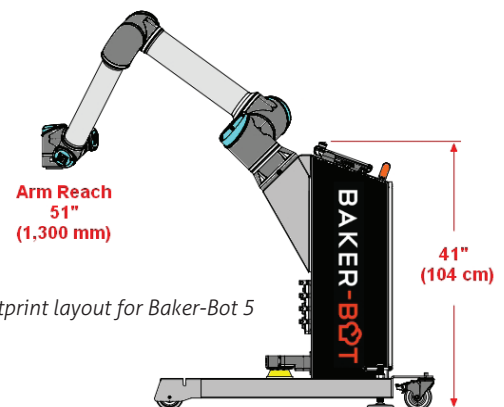

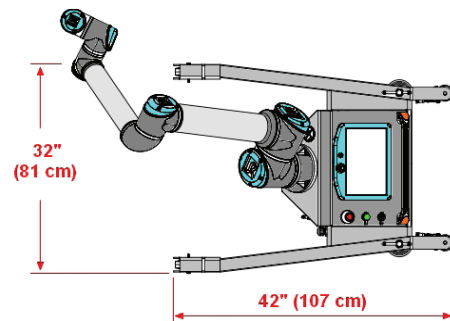

- Small footprint— fits into existing production space.
- App based interface — if you can use a smart phone or tablet, you can use the Baker-Bot.
- Quick tool changeover.
- Available in 3 sizes: 3kg, 5kg & 10kg payload.

### Suggested Applications:

- Decorating, spraying and depositing (with a filler).
- Tray unloading and loading.
- Primary & secondary packaging (pick 'n' place).
- Palletizing.
- Cookie dough cutting and transfer.
