

TRAY FEEDER

Remove the Manual Task of Tray Feeding

Manually loading trays from a dolly or a rack onto a conveyor is not only time consuming, but can cause physical strain and injury.

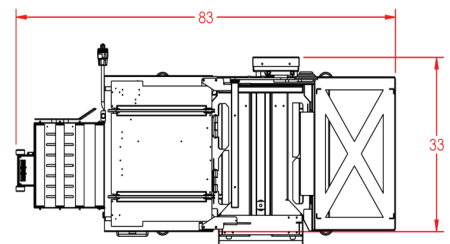

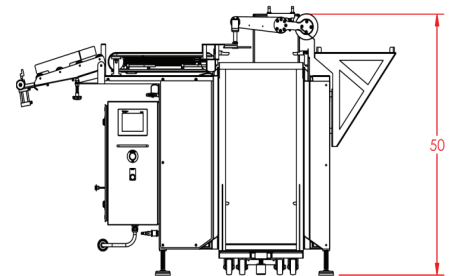

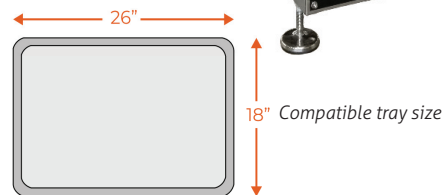

The Tray Feeder automatically loads trays onto a conveyor with or without parchment paper.

Benefits:

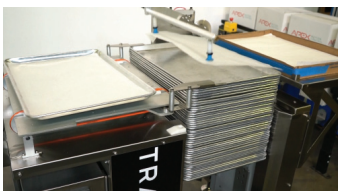

- Easy to use touch screen controls.
- Easy washdown and maintenance.
- Reduces repetitive strain injury and helps with labor shortages.
- Easily integrates with your existing conveyor.

Features & Specs

- Holds up to 80 trays.
- Feeds up to 20 trays per min. without paper, and 15 trays per min. with paper.
- Stainless steel dolly available for easy roll in and out of trays into holding area.
- Automatic tray lift from dolly to the feed platform.
- Optional automatic paper liner.
- Intuitive HMI for easy setup.

POWER REQUIREMENTS
220V Single-Phase 15A,
Pneumatic 4 CFM @ 80PSI
